FERTILITY CLINIC

part of HCA Healthcare UK

# WELCOME

At Lister Fertility Clinic, we have a dedicated surrogacy team to look after you and your surrogate throughout your treatment journey. Our surrogacy team provides specialist continuity of care and personalised support throughout the different steps of treatment.

In your first appointment at our clinic, we'll decide together how best we can help you through your journey. During your initial consultation you can find out more details about the screening tests, investigations and treatments involved. We try to combine as many of your appointments as possible to minimise the number of times you need to visit us. This could include your initial appointment with a doctor, the fertility counsellor and a dedicated surrogacy nurse.

Whether you are in a heterosexual or same-sex relationship, or single, we are here to help. Our counsellors will provide continuous support before, during and after your treatment, for you and your surrogate. We can also assist you if you need donor sperm or egg donation.

# CONTENTS

## HETEROSEXUAL SURROGACY PATHWAY

- 4 Fresh eggs and sperm
- 5 Own gametes (frozen eggs)
- 6 Frozen embryos
- 7 Fresh eggs and donor sperm
- 8 Frozen eggs and donor sperm
- 9 Donor eggs and partner sperm

## TWO DADS SURROGACY PATHWAY

- 10 Donor eggs and partner sperm

## SINGLE WOMAN SURROGACY PATHWAY

- 11 Fresh eggs and donor sperm
- 12 Frozen eggs and donor sperm

## SINGLE MAN SURROGACY PATHWAY

- 13 Donor eggs and own sperm

## APRICITY SURROGACY PATHWAY

- 14 Apricity donor eggs and partner sperm
- 15 Key to surrogacy pricing
